

While you experience the same program Healing Structure™ (meals & activities) as other guests, you will be also working on your individualized health goals (individual services).

Professional and Self-Assessments are used to measure your improvements and to prepare the next set of goals.

based on before/upon arrival assessments, we will design for you one-on-one treatments and specialized formulas program.

**Your Program Director will meet with you, explain the tests results, will present you the plan and ask your input and approval.**

**In-depth professional assessments will follow upon your arrival. We will set individual goals and review your emotional wellness questionnaires.**

**During your stay you'll experience: Fresh Start Healing Structure™. One-on one Therapeutic and Detox Services; and Supplements for Rebalancing, Rebuilding and Cleansing of the organs in need.**

based on symptoms observations and previous response to the chosen methods, we'll put together for you a plan to continue on when home.

**While results and ability to retain them are individual, most continue experiencing improvements for several months to 1-2 years after.**

*Disclaimer: Though Fresh Start Guests usually get amazing results, we cannot guarantee recovery from/ improvement of any specific disease or symptom. The results are individual and depend on many factors, including program length, type of condition, its severity, causes and commitment to the process.*
